

On August 18, the verses our pastor focused on are from Philippians 4:13. It teaches me important things: I should trust in God during tough times or when chasing my dreams. It says with God's help, I can do anything, which makes me feel more determined. It also reminds me to be humble and thankful, knowing my talents come from God. The verse encourages me to keep improving, saying God's help can make me grow.

On August 25, the title of the lesson was "Empowering Generosity," I learned in James 2:15-16 it's important to show my faith through actions, especially as someone with siblings. It reminds me to help my family when needed, not just say nice things. Doing things to help, like with schoolwork or chores, is more important than just wishing them well. It's about being proactive and showing that I care. This verse shows that true faith means doing things to help others, not just believing.

On September 1, the verse I remember is Matthew 5:13-14, "Jesus says that followers are like salt and light. The salt adds goodness, and the light shines for all to see". He encourages them (followers) or, in other words, us to remain true to our beliefs, bring positivity, and be visible examples of goodness in the world. I learned that we are the salt and light in this world, and we must do our job to be a great example to other people and be the light to guide them.

On September 8, the title of the service was "THE LORD HAS A PLAN FOR YOU," and the bible verse is Jeremiah 29:11. The lesson I learned from the teaching of my pastor and the message of God is that even if I feel useless or just hopeless and tired in daily life, I must remember that God has a plan for me. If God plans for me to become an IT professional, then I will be thankful, and if not, even though it's hard to believe, I must trust in him and have hope because he has a plan for me that brings me goodness and benefits for me. This verse made me realize that no matter what happens, our God has a plan.
